PE: Skills Progression

At Boutcher we follow the Real PE scheme of work. Real PE is a unique, child-centred approach that engages and challenges children in their PE lessons. It focuses on the development of twelve fundamental movement patterns involving agility, balance and coordination alongside healthy competition and cooperative learning. Real PE also focuses these fundamental movement patterns alongside on six learning behaviours or key cogs which are these are: Creative, Cognitive, Health and Fitness, Personal, Physical and Social.

Each Fundamental Movement Skill has its own document to support teaching high quality PE lessons and contains the following information:

- End of Key Stage 1 and 2 expectations for pupils aligned to the coloured challenges.
- Each skill broken down into small, progressive and achievable steps.
- Declarative knowledge aligned to the skill.
- Procedural knowledge, that is connected to the declarative knowledge, to support children so they have a clear understanding of how to 'get better at PE'.
- Specific vocabulary, aligned to each skill, to support children's understanding and participation.

Having this information readily available, will make it easier for you to share the declarative and procedural knowledge with your pupils, as well as the vocabulary that will help deepen their knowledge and understanding in PE lessons.
